

RAVINDRA NAMDEV

Full Stack Developer — JavaScript — React.js — Node.js — Laravel

Jabalpur, Madhya Pradesh, India | +91-7089508772 | ravindranamdev9752@gmail.com
linkedin.com/in/ravindra-namdev-51069830b | github.com/ravindra-n05

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Laravel, Express.js, AJAX

Databases: MySQL, MongoDB

Tools & Technologies: Git, RESTful APIs, AWS, Data Visualization, Agile Development

Core Competencies: Full Stack Development, Web Application Architecture, Database Design, Cloud Solutions

EDUCATION

Baderia Global Institute of Engineering & Management

Jabalpur, Madhya Pradesh

Bachelor of Technology in Artificial Intelligence & Machine Learning

September 2023 – October 2027

Expected Graduation: 2027

PROFESSIONAL EXPERIENCE

Viraj Soft Tech Solutions

Jabalpur, Madhya Pradesh

Full Stack Development Intern

August 2025 – Present

- Developing and deploying full stack web applications using React.js, Node.js, and Laravel framework
- Building RESTful APIs and implementing AJAX for asynchronous data communication, improving application responsiveness by 40%
- Designing and optimizing MySQL database schemas for efficient data storage and retrieval
- Collaborating with cross-functional teams in Agile environment to deliver scalable solutions
- Writing clean, maintainable code following industry best practices and design patterns

PROJECTS

E-Commerce Platform — React.js, Node.js, MySQL, Express.js

- Built a full-featured e-commerce application with user authentication, product catalog, and shopping cart functionality
- Implemented secure payment gateway integration and order management system
- Optimized database queries reducing page load time by 35%

Real-Time Chat Application — React.js, Node.js, Socket.io

- Developed real-time messaging application with WebSocket implementation for instant communication
- Integrated user presence detection and typing indicators for enhanced user experience
- Deployed application on AWS with CI/CD pipeline for automated testing and deployment

Task Management Dashboard — Laravel, MySQL, AJAX

- Created responsive task management system with role-based access control
- Implemented drag-and-drop interface using AJAX for seamless user interactions
- Designed RESTful API endpoints consumed by front-end application

CERTIFICATIONS & TRAINING

- **AWS APAC Solutions Architecture Job Simulation** – Cloud infrastructure and architecture design
- **Tata Group Data Visualisation Job Simulation** – Business insights and data-driven decision making
- **Deloitte Australia Cyber Job Simulation** – Cybersecurity principles and threat analysis
- **Python Essentials 1** – Core programming and problem-solving with Python
- **Introduction to Data Science** – Data analysis, visualization, and machine learning fundamentals
